

Choosing a handle that is compatible with your reel, other than the standard handle.

NOTE(s):

- LEFT HANDLE MODELS: use same handle types as standard versions
- Some handles may require additional parts to make a conversion. You may see some reel-specific notes regarding those parts in some of the handle screens when you click on the part numbers to view the handles on the page linked below.
- *If a reel is **NOT** listed under a particular type, then it is **NOT** compatible with any handle of that type.*

List of [TYPE A] Bridge/Sleeve/Stud(s)

Bridge, Gear Sleeve/Stud	Fits Reels
3-9, 98-155	9M
