

**"2052"
BY
SHAKESPEARE**

**A SMALL, LIGHT, POWERFUL, NEW OPEN-FACE REEL FRESH-WATER
SIZED TO PROVIDE THE ULTIMATE IN SPORT**

Something new has arrived on America's sport fishing scene: The compact No. 2052! New in scope, feel and power for its size, a 'perfect fit' between the hum-drum regular and the off-beat midget. This powerful "compact" weighs surprisingly little; it is level winding, geared 4.7 to 1 and casts smooth as silk; with ball bearing mounted pinion. The folding (for storage) bail is stainless steel. Its 3-unit crank is removable and "folds" out of the way. Other quality features are the famous Shakespeare 6-D drag, lever type non-reverse crank control, and Delrin molded spool. Three offerings:

- No. 2052** with 6 lb. line installed, approx. 175 yds. on spool... **\$30.00**
- No. 2052NL** with one spool, no line, installed..... **\$27.50**
- No. 2052NL-2** with two spools, no line installed..... **\$30.00**

EXTRA REEL SPOOLS
