

TIPS and SUGGESTIONS

1. **TO SET THE DRAG**—mount reel on rod and run line through guides — have someone pull the line out as a running fish would do. Put the non-reverse lever into "on" position and hold rod tip high as when playing a fighting fish. Set the drag tension just below breaking point of line. (Check drag tension often.)
2. **WHEN FIGHTING A LARGE FISH**— Do not crank against the drag of your reel any more than necessary. **PUMP THE ROD** and let the rod perform the service for which it was designed.
3. **CLEAN AND LUBRICATE REEL OFTEN**— Your reel is designed for quick and easy take down — Clean reel with damp cloth and wipe dry shortly after use. Apply a drop of light machine oil on exterior moving parts.
4. **TO AVOID LINE TWIST**— Use a swivel at lure tie-on point.
5. **KEEP THE LINE WOUND SNUGLY ON REEL**— Avoid loops or loose line on spool. If small spinners or lures are used it may be necessary to reel line in under tension of thumb and forefinger of right hand.
6. **WHEN TROLLING**—Be sure the non-reverse lever is in the "on" position, and that the drag is set as lightly as possible. The line roller on bail should be in line with guides. This eliminates unnecessary strain on the guides.

REPAIR AND REPLACEMENT OF PARTS

If given reasonable care, your reel will last for years without repairs. It is to your own best interest to give your reel the fine care that it deserves.

IMPORTANT!.. WHEN ORDERING PARTS, SPECIFY:

- (1) The catalog reel number (found on reel).
- (2) The model letters (found on reel).
- (3) The part reference number and part name.

Replace worn parts at once! In most areas there are facilities for repair of Shakespeare reels. A list of Shakespeare Reel Service centers may be obtained by writing to the Shakespeare Company. If your reel is in need of repair and you do not have an approved repair center in your area, return reel to:

Shakespeare of Arkansas, Inc., Service and Repair Parts Dept., Fayetteville, Arkansas 72701.

In Canada: Shakespeare Co. (Canada) Ltd.
Orillia, Ontario, Canada

THE FOLLOWING PRECAUTIONS ARE SUGGESTED:

- (1) Pack the reel carefully.
- (2) Address it plainly.
- (3) Give return address and zip code.
- (4) Send letter of explanation.
- (5) Fasten letter to parcel.
- (6) Insure parcel contents.
